

# Montessori Approach to Mathematics for the 3-6 Year Old Child

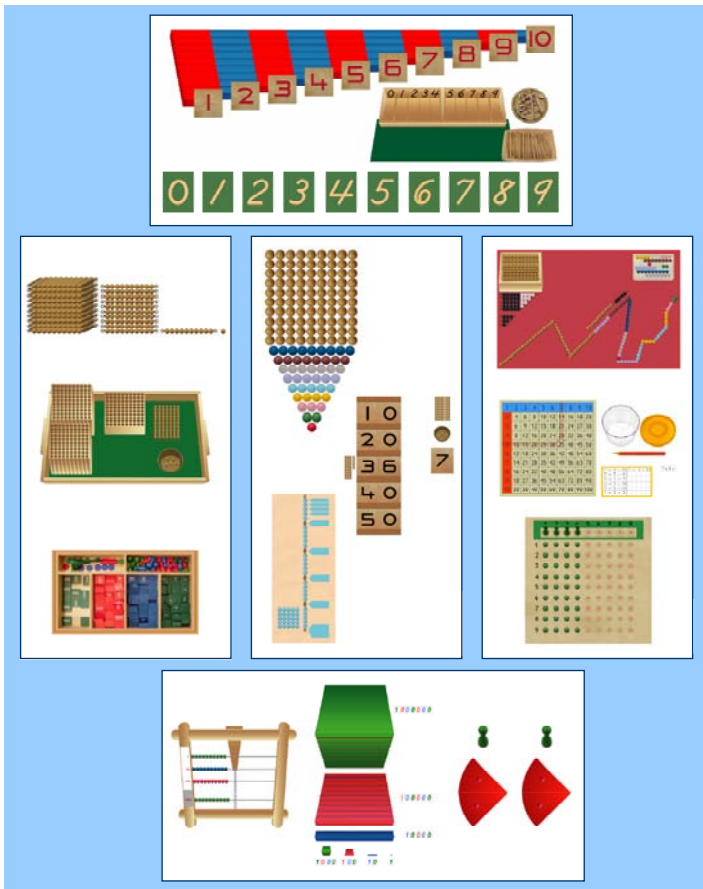

## 12-13 September 2008, Perth

Pamela Nunn will provide a comprehensive review of the 3-6 Mathematics programme beginning with **Number Work 0-10**, continuing with the parallel exercises of **The Decimal System, Continuation of Counting** and **Memorisation Work** and culminating in the **Passage to Abstraction**.

The workshop will elaborate on the groups of mathematical concepts introduced, the specific educational apparatus, and how mathematical knowledge is sequentially developed.

Participants will come to a further understanding of the unique aspects of the Montessori approach to mathematics including the five step process used to introduce new concepts (Introduction of Concrete, Introduction of Symbols, Association of the Concrete with the Symbols, Practice, Verification).

The workshop is designed for Montessori staff. It is however open to all and would be ideal for anyone considering undertaking teacher training in the future.

Friday, 12 September 2008, 12:00noon to 7:00pm  
Saturday, 13 September 2008, 9:00am to 4:00pm

Pamela Nunn has worked in the field of education for young children for 30 years and is an AMI 3-6 Teacher Trainer for AMTEF. She holds a Diploma in Early Childhood Education (South Australia) and gained her AMI (3-6) Diploma at the Sydney Montessori Teachers College in 1990. For ten years Pam held the position of Directress and authorised supervisor with the Sydney Montessori Society at Lindfield. Pam has been involved with professional development of Montessori teachers through workshops and national conferences. She is a convening group member of the Australian AMI Alumni Association and a board member of both the Montessori Children's Foundation and Montessori Australia Foundation.
